

**Saint Clement  
School**

To whom it may concern:

I have had the privilege of working with Debbie Fucoloro for the past fifteen years. I have always been impressed with the work I see happening in her classroom, especially in the field of technology. Her curriculum driven projects are enhanced by technology rather than just using technology "because it is the thing to do."

She has also been our Instructional Technology Specialist and has always been the one who inspires discussing, debating, collaborating, and sharing ideas with our faculty. She has brought her gifts of organization, creativity, and determination to our school's efforts to stay abreast of technological advancements. She provides guidance and training for faculty and students to acquire effective technological skills. She has helped with updating our Technology Plan and School Curriculum, adding her insightful comments and ideas.

She demonstrates a work ethic that is commendable and friendliness that makes having her as part of the team a true pleasure. She would be an asset to any organization.

Sincerely,

A handwritten signature in cursive script that reads "Marilyn Flores".
